Jetstar Asia to launch services between Singapore and Perth

Singapore: Jetstar Asia has announced plans to relaunch services between Singapore and Perth from 12 February 2022, when two-way quarantine-free travel is expected to be available to travellers.

Jetstar Asia will operate four weekly services to the Western Australian capital, pending Vaccinated Travel Lane (VTL) approval for the route, to meet the pent-up demand for travellers wanting to return to this popular Australian destination.

Pre-pandemic, Singapore travellers^ made up the largest group of visitors to Perth and with thousands of Singaporeans calling Western Australia home, the route is expected to be as popular as ever.

Jetstar Asia's Head of Commercial, Clive Ashmore Butler, said it was exciting to add another Australian destination back to the Jetstar network direct from Singapore.

"Perth has always been an incredibly popular destination for Singaporeans, one that they would return to time and again," Mr. Ashmore Butler said.

"Western Australia offers stunning beaches, wineries and restaurants, not to mention easy access to incredible places such as Margaret River and Ningaloo, but with many Singaporeans living in Perth it importantly enables family and friends to reconnect, some for the first time in two years.

"And in return, we can't wait to welcome Western Australians back to the Lion City while also providing them access to services operated by Jetstar's global network of codeshare and interline partners, as well as Jetstar Asia's Southeast Asian network, including favourites such as Bangkok and Phuket."

Fares for the new Jetstar Asia route are on sale now, alongside other Australian destinations, Darwin and Melbourne, that are designated Vaccinated Travel Lane (VTL) services starting in December.

Jetstar's [Fly Flexible](#)* policy offers customers who book flights before 31 December 2021 with a 'fee free' date change when travelling before 30 June 2023. Jetstar have also extended credit vouchers for use until at least 31 December 2022, for flights up to the end of 2023.

[Jetstar's Fly Well](#) safety measures offer an added layer of protection and demonstrate our commitment to keeping our people and our customers safe.

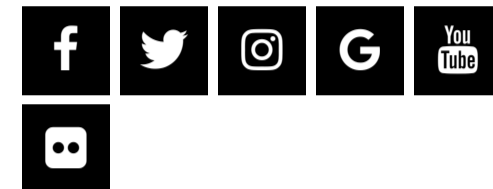

Travel and transit requirements apply for travel between Singapore and Australia. Please click [here](#) for more information.
