Dear Travel Partners,

A Christmas gift from Jetstar!

Want to speed up your bookings? The [Jetstar Agent Hub](#) now offers an **Express Flow!** This faster and easier way to book will cut down the number of steps in the booking process and has been crafted with the help of Agent feedback.

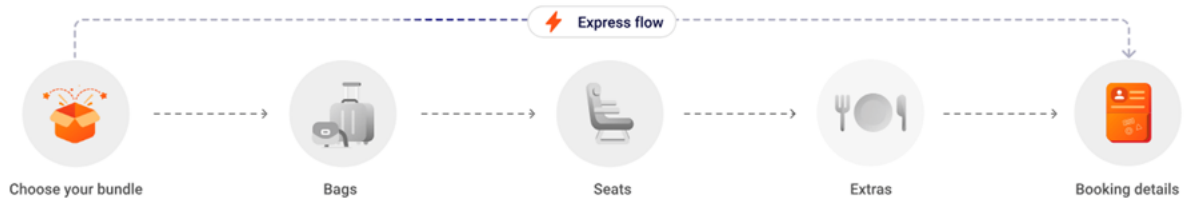

How does it work?

The **Express Flow** is an **optional** booking path that automatically applies the inclusions from selected bundles (noting our Starter fares are not bundled and are a seat only with carry-on of 7kg product). If a bundle is chosen, the system will **skip the bags, seats, and extras pages**, allowing for a faster booking experience. Your inclusions will be directly added, and if seat selection is in the bundle, these will be Auto assigned in accordance with the inclusion where available.

What stays the same?

The **original booking flow** remains fully available. You can choose to use either the traditional method or the new Express Flow, depending on your preference or client needs.

Please Review each section carefully, as adding additional items later may cost more.

Thanks for your continued support, and happy holidays!
